

CERTIFICATION FOR THE THAI AEROSPACE INDUSTRY (workshop)

1:30pm – 2:30pm

Brendon HILL, Global Aerospace Product Champion, BSI Group

bsi.

Brendon Hill is the Head of Aerospace at the British Standards Institution, the world's first National Standards Body and thought leader in business assurance. He is responsible for all aspects of the aerospace sector, including certification to the AS9100-series of standards as well as other standards and services relevant to aviation.

BSI is one of the biggest and most respected certification Bodies in aerospace, and Brendon works closely with the International Aerospace Quality group (IAQG) to help promote excellence in the aerospace supply chain and provide thought leadership in business assurance.

Brendon has been in aviation for 40 years, including 26 years as a British Army Officer where he was an Aircraft Engineer and served in many theatres of operation. He has been in certification for 10 years, 4 with BSI where he has developed BSI's reputation and services to aerospace. He has also worked in industry as a Group Quality Manager, looking after three factories, which supplied aerospace as well as other sectors such as oil and gas.
