

MRO MARKET IN THAILAND

11:20am – 11:50am **Panel: Business Opportunities in Thailand's MRO Industry**

Narudh CHERAMAKARA, Director of Aviation Research, Nok Airlines

NOK AIR

Dr Narudh received an air transport doctorate from Loughborough University, UK specializing in aviation externalities. He has been a life-long aviation enthusiast with extensive experience in the field of aviation. As the head of Nok Air's research department, he is responsible for overseeing research, strategic planning and route network development.

In academia, Narudh is a visiting professor of airline business management at Bangkok University. He has been publishing researches in the areas of airport competition, environmental impact of aviation and valuation of aviation externalities. He also appears in a number of printed media and radio giving expert-opinion on the state of the aviation industry. As an aviation enthusiast, he enjoys flying around the world. He has flown on 176 airlines to 258 airports in 98 countries.
